

Users & Devices Recovery Drills

A two-page drill pack for PIN recovery and device trust support.

1 Pick User

- Open Users & Devices
- Open PIN Registry
- Choose the affected user
- Check current active and recovery status

2 Issue Recovery

- Issue a recovery PIN
- Share it through a safe local path
- Ask the user to unlock with it
- Confirm access and audit trail

3 Close The Loop

- Set a fresh primary PIN
- Revoke the recovery PIN
- Retest Security Lock
- Check latest audit event
